Dear Parents and Students:

This course directory is an important part of the planning process for every student. The brief course descriptions will help you understand the class content, while the prerequisites are designed to ensure academic success of enrolled students to meet and exceed the established course competencies.

Navigating the complexities of a high school curriculum takes the input of many different people. Not only does the school strive to meet the needs and interests of the student and his or her parents but must also consider the requirements of the Indiana Department of Education, Cognia accreditation standards and guidance from the Office of Catholic Schools. Our heartfelt goal is always to provide students at Scecina Memorial High School the absolute best education possible to pursue their dreams and develop their God-given gifts.

We look forward to assisting you as you plan and prepare for your child's future during the scheduling process.

All classes will be subject to availability. Parents and students will be notified if the course requested is not available. Course changes will be made only for the following reasons: (1) academic misplacement as determined by classroom teacher, division chair, and administration, (2) medical hardship, (3) to maintain enough credits in required classes, (4) fulfillment of graduation requirements.

Dr. Peg Dispenzieri
Principal

Graduation Requirements for Students in Graduating Classes of 2027 and 2028

Effective beginning with students who enter high school in 2012-13 school year (class of 2016).

Course and Credit Requirements	
English/ Language Arts	8 credits Including a balance of literature, composition and speech.
Mathematics	6 credits (in grades 9-12) 2 credits: Algebra I 2 credits: Geometry 2 credits: Algebra II Or complete Integrated Math I, II, and III for 6 credits. Students must take a math course or quantitative reasoning course each year in high school.
Science	6 credits 2 credits: Biology I 2 credits: Chemistry I or Physics I or Integrated Chemistry-Physics 2 credits: any Core 40 science course
Social Studies	6 credits 2 credits: U.S. History 1 credit: U.S. Government 1 credit: Economics 2 credits: World History/Civilization or Geography/History of the World
Directed Electives	5 credits World Languages Fine Arts Career and Technical Education
Physical Education	2 credits
Health and Wellness	1 credit
Electives*	6 credits (College and Career Pathway courses recommended)
40 Total State Credits Required	

Schools may have additional local graduation requirements that apply to all students (not required for students with an IEP).

* Specifies the number of electives required by the state. High school schedules provide time for many more electives during the high school years. All students are strongly encouraged to complete a College and Career Pathway (selecting electives in a deliberate manner) to take full advantage of career and college exploration and preparation opportunities.

**SAT scores updated September, 2017

***WorkKeys assessment titles updated, 2018

CORE40 with Academic Honors (minimum 47 credits)

For the **Core 40 with Academic Honors** designation, students must:

- Complete all requirements for Core 40.
- Earn 2 additional Core 40 math credits.
- Earn 6-8 Core 40 world language credits (6 credits in one language or 4 credits each in two languages).
- Earn 2 Core 40 fine arts credits.
- Earn a grade of a "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Complete one of the following:
 - A. Earn 4 credits in 2 or more AP courses and take corresponding AP exams
 - B. Earn 6 verifiable transcribed college credits in dual credit courses from the approved dual credit list.
 - C. Earn two of the following:
 1. A minimum of 3 verifiable transcribed college credits from the approved dual credit list,
 2. 2 credits in AP courses and corresponding AP exams,
 3. 2 credits in IB standard level courses and corresponding IB exams.
 - D. Earn a composite score of 1250 or higher on the SAT and a minimum of 560 on math and 590 on the evidence based reading and writing section.**
 - E. Earn an ACT composite score of 26 or higher and complete written section
 - F. Earn 4 credits in IB courses and take corresponding IB exams.

CORE40 with Technical Honors (minimum 47 credits)

For the **Core 40 with Technical Honors** designation, students must:

- Complete all requirements for Core 40.
- Earn 6 credits in the college and career preparation courses in a state-approved College & Career Pathway and one of the following:
 1. Pathway designated industry-based certification or credential, or
 2. Pathway dual credits from the approved dual credit list resulting in 6 transcribed college credits
- Earn a grade of "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Complete one of the following,
 - A. Any one of the options (A - F) of the Core 40 with Academic Honors
 - B. Earn the following minimum scores on WorkKeys: Workplace Documents, Level 6; Applied Math, Level 6; and Graphic Literacy, Level 5.***
 - C. Earn the following minimum score(s) on Accuplacer: Writing 80, Reading 90, Math 75.
 - D. Earn the following minimum score(s) on Compass: Algebra 66 , Writing 70, Reading 80.

Graduation Requirements for Students in Graduating Class of 2029 and beyond

INDIANA
DEPARTMENT of
EDUCATION

THE NEW INDIANA DIPLOMA

The new Indiana diploma, effective for all students beginning with the class of 2029, includes a base (minimum requirements) for every student, plus the opportunity to earn readiness seals aligned with their unique path. Students are encouraged to seize this flexibility by personalizing their high school experience. The new seals provide additional intentionality to maximize readiness and are designed to be permeable, allowing students to update their graduation plan and pivot, if their original interests and goals change. Students who do not earn a seal must still complete components 2 and 3 of Graduation Pathways.

	REQUIRED CREDITS	FLEXIBLE CREDITS
ENGLISH	8 CREDITS 2 credits: English 9 1 credit: Communications-focused course	5 additional English credits - Ex.: English 10-12, American Literature, World Literature, Expository Writing, etc.
MATH	7 CREDITS 2 credits: Algebra I 1 credit: Personal Finance	4 additional math credits - Ex. Geometry, Algebra II, Pre-Calculus, Probability and Statistics, Business Math, etc.
SCIENCE, TECHNOLOGY, AND ENGINEERING	7 CREDITS 2 credits: Biology I 1 credit: Computer Science	2 additional science credits - Ex. Biology II, Chemistry I, Physics I, etc. 2 STEM-focused credits - Ex. Plant and Soil Science, Principles of Engineering, Software Development, etc.
SOCIAL STUDIES	5 CREDITS 2 credits: U.S. History 1 credit: U.S. Government	2 credits: World Perspectives - Ex. Geography and History of the World, AP World History, French III, etc.
PE/HEALTH	2 CREDITS 1 credit: Physical Education 1 credit: Health & Wellness	
PERSONALIZED ELECTIVES	12 CREDITS Students are encouraged to utilize the new readiness-seals to align these personalized electives with their unique goals. Personalized electives can include a variety of courses, such as Career and Technical Education (CTE), Performing or Fine Arts, and World Languages.	
COLLEGE & CAREERS	1 CREDIT 1 credit: Preparing for College & Careers	Preparing for College and Careers can be offered in middle school to provide additional flexibility in a student's high school schedule.

INDIANA
DEPARTMENT of
EDUCATION

BLUEPRINT FOR SUCCESS: READINESS-SEALS

Readiness seals are designed to be permeable, allowing students to update their graduation plan and pivot, if their original interests and goals change. Although seals are optional, students are encouraged to utilize the blueprints below to focus their flexible credits into a connected pathway that aligns with their future goals. Students may earn one or multiple seals. Graduation Pathways requirements will be satisfied through completion of any seal.

ENROLLMENT

EMPLOYMENT

ENLISTMENT & SERVICE

HONORS SEAL

- Complete at least 4 World Language and 6 Social Studies credits
- Complete at least 8 Math credits
 - Algebra I plus Geometry, Algebra II, and Pre-Calculus or any advanced math credits aligned to their course of study
- Complete at least 6 Science credits
 - Biology I plus Chemistry and Physics or any advanced lab science credits aligned to their course of study
- Earn a C or higher in all courses and earn a cumulative B average
- Complete one of the following:
 - Earn 4 credits in AP, IB, or Cambridge courses and take corresponding exams
 - Earn 6 college credits
 - Score a 1250 on the SAT or a 26 on the ACT
 - Earn two of the following:
 - At least 3 college credits
 - 2 credits in AP courses and take corresponding exams
 - 2 credits in IB courses and take corresponding exams
 - 2 credits in Cambridge courses and take corresponding exams

- Complete one of the following:
 - A market-driven credential of value aligned to a specific occupation
 - 3 courses in a Career and Technology Education (CTE) pathway
 - An approved career preparation experience aligned to Indiana's CSA program, or
 - An approved, locally-created pathway
- Complete 150 hours of work-based learning (may include multiple experiences that are paid, unpaid, on-site, or simulated)
- Demonstrate skill development in Communication, Collaboration, and Work Ethic
- Meet attendance goal:
 - At least 1 school year with no more than 3 days of unexcused absences; or
 - At least 150 hours of work-based learning experience with no more than 3 unexcused absences.

- Complete one of the following:
 - Introduction to Public Service course or approved locally-created equivalent
 - Emphasis on developing an awareness of the physical standards and character required for service
 - One year of JROTC or Civil Air Patrol in high school
- Achieve a score of 31 on the ASVAB and complete one of the following:
 - All three components of the Career Exploration Program
 - A career exploration tool approved by IDOE
- Meet attendance goal:
 - At least 1 school year with no more than 3 days of unexcused absences
- Demonstrate skill development in Communication, Collaboration, and Work Ethic
 - Externally verified through a mentorship experience with current military personnel, veterans, or other public safety professionals

HONORS PLUS SEAL

Earn the Honors Enrollment Seal, **plus:**

- Earn a credential of value that may include, for example:
 - Associate degree;
 - Technical Certificate;
 - Indiana College Core;
 - AP Scholar with Distinction;
 - Cambridge AICE Diploma; or
 - IB Diploma
- Complete at least 75 hours of work-based learning (may include multiple experiences that are paid, unpaid, on-site, or simulated)
- Demonstrate skill development in the following areas: Communication, Collaboration, and Work Ethic

Earn the Honors Employment Seal, **plus:**

- Earn a market-driven credential of value that may include, for example:
 - Associate degree;
 - Technical Certificate;
 - Indiana College Core; or
 - Advanced industry certificate
- Complete additional work-based learning (total of 650 hours in one or more experiences) that may include, for example:
 - Pre-Apprenticeship
 - Modern Youth Apprenticeship
- Demonstrate skill development in Communication, Collaboration, Work Ethic, and any additional skills determined locally

Earn the Honors Enlistment Seal, **plus:**

- Complete one of the following:
 - Achieve a score of 50 or higher on the ASVAB
 - Enrollment in ROTC at the collegiate level
 - Acceptance to a service academy
- Demonstrate excellence in leadership through one of the following:
 - Completion of at least 100 hours of public service;
 - Holding a leadership role in a co/extracurricular activity;
 - Completion of two seasons of a team-based physical sport or activity

Graduation Pathways Checklist

How do I graduate from Sccecina Memorial High School?

You must complete one requirement from each box!

Box 1 Diploma:

- ☐ Complete all diploma requirements- combination of required and elective classes
 - ☐ Academic Honors Diploma
 - ☐ Technical Honors Diploma
 - ☐ Core 40 Diploma
 - ☐ Indiana Diploma (Class of 2029 and beyond)

Box 2 Employability Skills

- ☐ Service Based Learning- Service Hours & Life Book (Capstone)

Box 3 Post Secondary Ready Competencies (you must complete at least one)

- ☐ Earn an Academic Honors Diploma
- ☐ Earn a Technical Honors Diploma
- ☐ Earn an Indiana Diploma Honors Seal (Class of 2029 and beyond)
- ☐ ACT: English 18 or Reading 22 AND Math 22 or Science 23
- ☐ SAT: Evidenced Based Reading and Writing: 480 AND math: 530
- ☐ ASVAB: 31 or higher and provide proof of enlistment
- ☐ CTE Concentrator
 - Arts, AV Tech and Comm: Radio/TV Broadcasting
 - ☐ Prin of Broadcasting + Audio & Video Production + Mass Media Prod
 - Business Management and Admin: Business Administration
 - ☐ Prin of Business Mgt + Mgt Fund or Marketing Fund + Account Fund
 - Finance: Accounting:
 - ☐ Prin of Business Management + Accounting Fund + Adv Accounting
 - Information Technology: Computer Science:
 - ☐ Prin of Comp Sci + Topics of CS + Computer Science
- ☐ AP (Advanced Placement) and/or Dual Credit (high school and college credit)
Must earn a C- average or higher in at least 3 courses
- ☐ Locally Created Pathway- Civic Arts
All Students in the Civic Arts Pathway must take Intro to Business or Principles of Business Management AND:
 - ☐ Art: 2D Art + 3D Art + Ad 2D Art or Ad 3D Art
 - ☐ Band: Beginning Band + Advanced Band
 - ☐ Choir: Beginning Chorus + Advanced Chorus
 - ☐ Theater: Technical Theater + Theater Arts + Adv. Theater Arts or Adv. Tech Theater

Students must also keep a portfolio of their work throughout high school.

Grade Point Average and Grading Scale

The Grade Point Average (GPA) for each semester is determined by dividing honor points earned for all classes taken by the total number of credits attempted. See below for the school-wide grading scale.

Letter Grade	Percentage	GPA	Weighted GPA
A	95-100	4.0	4.5
A-	92-94	3.67	4.17
B+	89-91	3.33	3.83
B	86-88	3.0	3.5
B-	83-85	2.67	3.17
C+	80-82	2.33	2.83
C	77-79	2.0	2.5
C-	74-76	1.67	2.17
D+	71-73	1.33	1.83
D	66-70	1.0	1.5
F	0-65	0	0

A modified grading scale may be available for students who work with an official CSEP (Catholic Schools Education Plan) or ILP (Individual Learning Plan).

Course Credit Recovery

A student who earns an 'F' in a required course will have to retake that course prior to advancing to the next course. Credit recovery may require summer school or another approved credit recovery option.

(W) and (DC) Indicators – Weighted Courses

Weighted courses provide students an opportunity to heavily impact their GPA. Weighted courses in the course catalog are found with a (W) indicator beside the course name. When GPA is calculated, an additional .5 is added to the points awarded to the final grade point earned for the course. As an example, traditionally an A is worth 4 points towards a student's GPA calculation. For a weighted course, an A is worth 4.5 points towards a student's GPA calculation.

Dual Credit courses provide students an opportunity to earn college credit along with high school credit. Dual Credit courses in the course catalog are found with a (DC) indicator beside the course name, and all are also weighted courses. Students enrolling in Dual Credit courses may be asked for their Social Security Number in order to receive the college credit

Advanced Placement (AP) Courses

The AP (Advanced Placement) Program is a nationally recognized program between secondary schools and colleges/universities developed through the College Board. Grades in AP courses are on the Weighted grade point scale. Students are able to take college level classes while still attending Scecina Memorial High School. Representatives from a wide range of colleges and universities have designed the curriculum for the courses, and each student is required to take a final exam in May designed by the College Board. Each high school teacher has attended an intensive training prior to teaching the designated AP course.

Acceptance into one or more of these courses will require an increased workload outside of class time, study sessions with peers, and other reviews. Nearly all the nation's colleges and universities have an AP policy granting incoming students' credit, placement, or both for qualifying AP Exam grades. **All students signed up for an AP course must take the corresponding AP Exam.**

Career and Technical Education – CTE Courses

Today's cutting-edge, rigorous and relevant Career and Technical Education (CTE) prepares students for a wide range of high-wage, high-skill, and in-demand careers. The mission of Career and Technical Education (CTE) in Indiana is to ensure an education system of high quality and equity for the academic achievement and career preparation of all Indiana students. Students in Indiana's secondary CTE programs will gain the knowledge, skills and abilities needed for success in postsecondary education and economically viable career opportunities.

Business Education

The Business Education Department at Scecina Memorial High School incorporates Catholic identity through the analysis of ethical situations that occur in all aspects of the business world. By guiding students to interpret the past and current actions of business leaders, Business teachers give students the tools to make logical and morally responsible decisions based on Catholic Values. Through experience in oral and written expression, students learn to articulate and defend their beliefs as they relate to both business objectives and their Catholic identity.

Career and Technical Education (CTE) Pathways Offered:

Accounting

10	Principles of Business Management
11	Accounting Fundamentals
12	Advanced Accounting

Business Administration: Management

10	Principles of Business Management
11-12	Management Fund. or Marketing Fund.
11-12	Accounting Fundamentals

INTRODUCTION TO BUSINESS

ELECTIVE

Course Number: 4518

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Introduction to Business introduces students to the world of business, including the concepts, functions, and skills required for meeting the challenges of operating a business in the twenty-first century on a local, national, and/or international scale. The course covers business management, entrepreneurship, marketing fundamentals, and business ethics and law. The course develops business vocabulary and provides an overview of business and the role that business plays in economic, social, and political environments.

PERSONAL FINANCIAL RESPONSIBILITY

ELECTIVE

(Req. for 2028 and beyond)

Course Number: 4540

Grades 10-11-12

ONE SEMESTER 1 Credit

Personal Financial Responsibility addresses the identification and management of personal financial resources to meet the financial needs and wants of individuals and families, considering a broad range of economic, social, cultural, technological, environmental, and maintenance factors. This course helps students build skills in financial responsibility and decision making; analyze personal standards, needs, wants, and goals, identifying sources of income, savings, and investing; understand banking, budgeting, record-keeping and managing risk, insurance and credit card debt. A project-based approach and applications through authentic settings such as work-based observations and service-learning experiences are appropriate. Direct, concrete applications of mathematics proficiencies in projects are encouraged. *(For the Class of 2028, Personal Financial Responsibility will be a state mandated course).*

PRINCIPLES OF BUSINESS MANAGEMENT (Dual Credit) (W)

ELECTIVE

Course Number: 4562

Grades 10-11-12

FULL YEAR 2 Credits

Principles of Business Management focuses on the roles and responsibilities of managers and opportunities and challenges of ethically managing a business in the free-enterprise system. Students will understand management, team building, leadership, problem-solving steps and processes that contribute to achieving organizational goals. The management of human and financial resources is emphasized.

ACCOUNTING FUNDAMENTALS

ELECTIVE

Course Number: 4524

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Principles of Business Management

Accounting Fundamentals introduces the language of business using Generally Accepted Accounting Principles (GAAP) and procedures for proprietorships and partnerships using double-entry accounting. Emphasis is placed on accounting principles as they relate to both manual and automated financial systems. This course involves understanding, analyzing, and recording business transactions and preparing, analyzing, and interpreting financial reports as a basis for decision-making.

MANAGEMENT FUNDAMENTALS

ELECTIVE

Course Number: 7143

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Principles of Business Management

Management Fundamentals describes the functions of managers, including the management of activities and personnel. Describes the judicial system and the nature and sources of law affecting business. Studies contracts, sales contracts with emphasis on Uniform Commercial Code Applications, remedies for breach of contract and tort liabilities. Examines legal aspects of property ownership, structures of business ownership, and agency relationships.

MARKETING FUNDAMENTALS

ELECTIVE

Course Number: 5914 **Grades 11-12**

FULL YEAR **2 Credits**

Prerequisite: Principles of Business Management

Marketing Fundamentals provides a basic introduction to the scope and importance of marketing in the global economy. Course topics include the seven functions of marketing: promotion, channel management, pricing, product/service management, market planning, marketing information management, and professional selling skills. Emphasis is marketing content but will involve use of oral and written communications, mathematical applications, problem-solving, and critical thinking skills through the development of an integrated marketing plan and other projects.

ADVANCED ACCOUNTING (W)

ELECTIVE

Course Number: 4522 **Grades 12**

FULL YEAR **2 Credits**

Prerequisite: Principles of Business Management and Accounting Fundamentals

Advanced Accounting expands on the Generally Accepted Accounting Principles (GAAP) and procedures for proprietorships and partnerships using double-entry accounting covered in Introduction to Accounting. Emphasis is placed on accounting principles as they relate to both manual and automated financial systems. This course involves understanding, analyzing, and recording business transactions and preparing, analyzing, and interpreting financial reports as a basis for decision-making.

Catholic Theology

The scope and sequence of the courses in the Catholic Theology Department at Scecina Memorial High School are in accordance with the national high school curriculum as designed by the United States Conference of Catholic Bishops and is centered around the life of Jesus. The entire series of courses is broken into eight semesters. Each course is required for graduation from Scecina. As stated in the Scecina Handbook, a student must pass Catholic Theology for each semester he/she is enrolled as a student at Scecina or at another Catholic school.

CATHOLIC THEOLOGY 1-2

CORE

Course Number: 410 **Grade 9**

FULL YEAR **2 Credits**

Semester 1: Revelation of Jesus Christ in Scripture

The purpose of this course is to give students a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible they will come to encounter the living Word of God, Jesus Christ. In the course they will learn about the Bible, authored by God through Inspiration, and its value to people throughout the world. If they have not been taught this earlier, they will learn how to read the Bible and will become familiar with the major sections of the Bible and the books included in each section. The students will pay particular attention to the Gospels, where they may grow to know and love Jesus Christ more personally.

Semester 2: Who is Jesus Christ

The purpose of this course is to introduce students to the mystery of Jesus Christ, the living Word of God, the Second Person of the Blessed Trinity. In this course students will understand that Jesus Christ is the ultimate Revelation to us from God. In learning about who he is, the students will also learn who he calls them to be.

CATHOLIC THEOLOGY 3-4

CORE

Course Number: 420 **Grade 10**

FULL YEAR **2 Credits**

Semester 3: The Mission of Jesus Christ (The Paschal Mystery)

The purpose of this course is to help students understand all that God has done for us through his Son, Jesus Christ. Through this course of study, students will learn that for all eternity, God has planned for us to share eternal happiness with him, which is accomplished through the redemption Christ won for us. Students will learn

that they share in this redemption only in and through Jesus Christ. They will also be introduced to what it means to be a disciple of Christ and what life as a disciple entails.

Semester 4: Jesus Christ's Mission Continues in the Church

The purpose of this course is to help the students understand that in and through the Church they encounter the living Jesus Christ. They will be introduced to the fact that the Church was founded by Christ through the Apostles and is sustained by him through the Holy Spirit. The students will come to know that the Church is the living Body of Christ today. This Body has both divine and human elements. In this course, students will learn not so much about events in the life of the Church but about the sacred nature of the Church.

CATHOLIC THEOLOGY 5-6

CORE

Course Number: 430

Grade 11

FULL YEAR 2 Credits

Semester 5: Sacraments as Privileged Encounters with Jesus Christ

The purpose of this course is to help students understand that they can encounter Christ today in a full and real way in and through the sacraments, and especially through the Eucharist. Students will examine each of the sacraments in detail so as to learn how they may encounter Christ throughout life.

Semester 6: Life in Christ

The purpose of this course is to help students understand that it is only through Christ that they can fully live out God's plans for their lives. Students are to learn the moral concepts and precepts that govern the lives of Christ's disciples.

CATHOLIC THEOLOGY 7-8

CORE

Course Number: 440

Grade 12

FULL YEAR 2 Credits

Semester 7: Sacred Scripture & Catholic Social Teaching

The first quarter of this course is designed to help students understand how to apply Sacred Scripture to their own lives. The second quarter is designed to help students understand how the Church calls us to respond to the command of Jesus Christ in Matthew 25 to serve the poor and needy.

Semester 8: Church History & Vocations

The first quarter of this course is focused on providing students with the high points of Church History. The second quarter of this course is focused on helping students begin the important process of discerning how God calls each person to a life of service.

Computer Science

The Computer Science Department introduces students to a wide range of computer languages and applications of computer science, including basic architecture of the internet, and how computers function. These courses are electives for students with all students beginning coursework in Computer Science I course. These courses are hands-on and require heavy use of the computer.

Career and Technical Education (CTE) Pathways Offered:

Computer Science

9-10	Principles of Computing
10-11	Topics in Computer Science
11-12	Computer Science

COMPUTING FOUNDATIONS FOR A DIGITAL AGE

CORE (2029 and beyond)

Course Number: 4565

Grades 9

ONE SEMESTER 1 Credit

Computers and the internet have revolutionized the way we access and disseminate information. As technology continues to change at an ever-increasing pace, the need for students to gain a foundational understanding of computer science is clear. *Computing Foundations for a Digital Age* is designed to introduce students to five major topics within computer science including computing systems, networks and the internet, data and analysis, algorithms and planning, and impacts of computing. The course introduces foundational computing concepts while exploring current events and building critical thinking, collaboration, problem solving, and other important skills that are invaluable for life in a global and technologically advancing society.

PRINCIPLES OF COMPUTING

ELECTIVE

Course Number: 7183

Grades 9-10-11-12

FULL YEAR 2 Credits

Principles of Computing provides students the opportunity to explore how computers can be used in a wide variety of settings. The course will begin by exploring trends in computing and the necessary skills to implement information systems. Topics include operating systems, database technology, cybersecurity, cloud implementations and other concepts associated with applying the principles of good information management to the organization. Students will also have the opportunity to utilize basic programming skills to develop scripts designed to solve problems. Students will learn about algorithms, logic development and flowcharting.

TOPICS IN COMPUTER SCIENCE

ELECTIVE

Course Number: 7351

Grades 10-11-12

FULL YEAR 2 Credits

Topics in Computer Science is designed for students to investigate emerging disciplines within the field of computer science. Students will use foundational knowledge from 7183 Principles of Computing to study the areas of data science, artificial intelligence, app/game development, and security. Students will utilize knowledge related to these areas and programming skills to develop solutions to authentic problems.

COMPUTER SCIENCE

ELECTIVE

Course Number: 7352

Grades 11-12

FULL YEAR 2 Credits

Computer Science introduces the fundamental concepts of procedural programming. Topics include data types, control structures, functions, arrays, files, and the mechanics of running, testing, and debugging. The course also offers an introduction to the historical and social context of computing and an overview of computer science as a discipline.

English

The English Department at Secena Memorial High School incorporates Catholic identity through the analysis of diverse types of literature that examine the human condition and the conflicts human beings have faced and continue to face. Using discussion and reflective study, the department encourages understanding and the need to respect the dignity of all individuals, as Christ taught us to do. By guiding students to interpret current media, English instructors give them tools to make logical and morally responsible decisions based on Catholic values. Through experience in oral and written expression, students learn to articulate and defend their beliefs, arguing them effectively and courteously. All of these skills have as their ultimate goal the preparation of our students to live lives in accordance with the Franciscan tenets of responsible stewardship, service, and reconciliation with others.

ENGLISH 9

CORE

Course Number: 1002

Grade 9

FULL YEAR 2 Credits

English 9, an integrated English course based on the Indiana Academic Standards for English/Language Arts in Grades 9-10, is a study of language, literature, composition, and oral communication, focusing on literature within

an appropriate level of complexity for this grade band. Students use literary interpretation, analysis, comparisons, and evaluation to read and respond to representative works of historical or cultural significance in classic and contemporary literature balanced with nonfiction. Students write responses to literature, expository (informative), narrative, and argumentative/persuasive compositions, and sustained research assignments. Students deliver grade-appropriate oral presentations with attention to audience and purpose and access, analyze, and evaluate online information

ENGLISH 9 HONORS (W)

CORE

Course Number: 1002H **Grade 9**

FULL YEAR **2 Credits**

Prerequisite: *B Average in English and teacher recommendation*

This course consists of all the subject content and requirements of *English 9*, but it is characterized by literary and composition skills that challenge the more advanced students. The literature chosen for this course requires higher-level thinking and the ability to comprehend and analyze more difficult texts. The composition element includes a more in-depth approach to writing effective and well-developed papers with varied sentence structure and academic vocabulary.

ENGLISH 10

CORE

Course Number: 1004/1076 **Grade 10**

FULL YEAR **2 Credits**

English 10, an integrated English course based on the Indiana Academic Standards for English/Language Arts in Grades 9- 10, is a study of language, literature, composition, and oral communication, focusing on literature with an appropriate level of complexity for this grade band. Students use literary interpretation, analysis, comparisons, and evaluation to read and respond to representative works of historical or cultural significance in classic and contemporary literature balanced with nonfiction. Students write responses to literature, expository (informative) and argumentative/persuasive compositions, and sustained research assignments. Students deliver grade-appropriate oral presentations with attention to audience and purpose and access, analyze, and evaluate online information. The second semester of this course will have a focus on communications and speech.

ENGLISH 10 HONORS (W)

CORE

Course Number: 1004H/1076H **Grade 10**

FULL YEAR **2 Credits**

Prerequisite: *B average and teacher recommendation*

This course consists of all the subject content and requirements of *English 10*, but it is characterized by literary and composition skills that challenge the more advanced students. The world literature chosen for this course requires higher-level thinking and the ability to comprehend and analyze more difficult texts. The composition element includes a more in-depth approach to writing effective and well-developed papers with varied sentence structure and academic vocabulary. The second semester of this course will have a focus on communications and speech.

ENGLISH 11

CORE

Course Number: 1006 **Grade 11**

FULL YEAR **2 Credits**

English 11, an integrated English course based on the Indiana Academic Standards for English/Language Arts in Grades 11-12, is a study of language, literature, composition, and oral communication focusing on literature with an appropriate level of complexity for this grade band. Students use literary interpretation, analysis, comparisons, and evaluation to read and respond to representative works of historical or cultural significance appropriate in classic and contemporary literature balanced with nonfiction. Students write narratives, responses to literature, academic essays (e.g. analytical, persuasive, expository, summary), and more sustained research assignments incorporating visual information in the form of pictures, graphs, charts and tables. Students write and deliver grade-appropriate multimedia presentations and access, analyze, and evaluate online information.

ENGLISH 11 HONORS (W)**CORE****Course Number: 1006H** **Grade 11****FULL YEAR** **2 Credits****Prerequisite: B average and teacher recommendation**

This course meets all the requirements of *English 11* with a more intensified focus on literary analysis and, through the literature chosen, a closer look at aspects of American culture including religion, family structure, and male and female roles. Higher standards are also placed on honors students in the writing and language usage elements. More sophisticated language and substantial content is expected in the research and analytical papers students produce.

ENGLISH 12**CORE****Course Number: 1008** **Grade 12****FULL YEAR** **2 Credits**

English 12, an integrated English course based on the Indiana Academic Standards for English/Language Arts for Grades 11- 12, is a study of language, literature, composition, and oral communication focusing on an exploration of point of view or perspective across a wide variety of genres. Students use literary interpretation, analysis, comparisons, and evaluation to read and respond to representative works of historical or cultural significance in classic and contemporary literature balanced with nonfiction. Students write narratives, responses to literature, academic essays (e.g. analytical, persuasive, expository, summary), and more sustained research assignments incorporating visual information in the form of pictures, graphs, charts, and tables. Students write and deliver grade-appropriate multimedia presentations and access, analyze, and evaluate online information.

ENGLISH 12 HONORS (W)**CORE****Course Number: 1008H** **Grade 12****FULL YEAR** **2 Credits****Prerequisite: B average and teacher recommendation**

This is a survey course with an emphasis on British literature from early times to the present. It is designed for students who seek a more rigorous course of study than the one offered in *English 12*, yet who do not wish to take the Advanced Placement course during their senior year. Students use this literature as a basis for developing skills in literary analysis, determining structural features of literary works, and evaluating the historic and cultural significance of such works. Students are expected to read extensively and in-depth and do so independently. The composition element of the course focuses on developing students' understanding of the purposes of various rhetorical devices and writing styles, as well as refining their skills in preparing and composing essays, research papers, reports, and technical documents. Integrated into the study of composition and literature is the continuing development of vocabulary and grammar skills.

AP ENGLISH LANGUAGE AND COMPOSITION (W)**CORE****Course Number: 1056** **Grade 11-12****FULL YEAR** **2 Credits****Prerequisite: Teacher recommendation**

AP English Language and Composition is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The course focuses on the development and revision of evidence-based analytic and argumentative writing and the rhetorical analysis of nonfiction texts. The course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. There is no prescribed sequence of study.

AP ENGLISH LITERATURE & COMPOSITION (W)

CORE

Course Number: 1058

Grade 11-12

FULL YEAR 2 Credits

Prerequisite: Teacher recommendation

AP English Literature and Composition is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work's structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works.

FILM LITERATURE

ELECTIVE

Course Number: 1034

Grades 10-11-12

ONE SEMESTER 1 Credit

Film Literature explores the art of cinematic storytelling through the lens of literary analysis. Students will study films as complex texts—analyzing narrative structure, character development, symbolism, and theme—while comparing and contrasting them with written works. Through screenings, discussions, written assignments, and creative projects, students will learn how directors, writers, and cinematographers use visual language to convey meaning. The course emphasizes critical thinking, close reading of both literature and film, and the application of literary terms to cinematic works.

Catholic Integration will take place in the coursework itself, such as through discussing themes, values, portrayals in the films or characters we are studying. The course will strive to portray films that showcase those values as a part of the larger unit; for example, we might include portrayals of the early saints when working through characterization and character growth in films.

CREATIVE WRITING

ELECTIVE

Course Number: 1092

Grades 11-12

ONE SEMESTER 1 Credit

Creative Writing, a course based on the Indiana Academic Standards for English/Language Arts, is a study and application of the rhetorical writing strategies for prose and poetry. Using the writing process, students demonstrate a command of vocabulary, the nuances of language and vocabulary, English language conventions, an awareness of the audience, the purposes for writing, and the style of their own writing. Course can be offered in conjunction with a literature course, or schools may embed Indiana Academic Standards for English/Language Arts reading standards within curriculum.

DEVELOPMENTAL READING

ELECTIVE

Course Number: 0120

Grade 9

FULL YEAR 2 Credits

Developmental Reading, a supplemental course that provides students with individualized instruction designed to support success in completing coursework aligned with the Indiana Academic Standards for English/Language Arts focusing on the Reading Standards for Literature and Nonfiction. All students should be concurrently enrolled in an English course in which class work will address all the Indiana Academic Standards.

Fine Arts: Visual Arts

The Fine Arts Department at Scecina Memorial High School incorporates Catholic identity through religious imagery and music. Through the use of different media, students are able to express their Catholic beliefs and spirituality. Students learn how art and music are influenced by Catholic symbolism.

Civic Arts Pathway:

Art

9-12	Intro to Business or Principles of Business Management
9-12	Intro to 2D Art (1 semester)
9-12	Intro to 3D Art (1 semester)
10-12	Advanced 2D or 3D Art

INTRODUCTION TO TWO-DIMENSIONAL ART

ELECTIVE

Course Number: 4000

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Introduction to Two-Dimensional Art is a course based on the Indiana Academic Standards for Visual Art. Students taking this course engage in sequential learning experiences that encompass art history, art criticism, aesthetics, production, and integrated studies and lead to the creation of portfolio quality works. Students explore historical and cultural background and connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; create two-dimensional works of art, reflect upon the outcomes, and revise their work; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. They identify ways to utilize and support art museums, galleries, studios, and community resources.

INTRODUCTION TO THREE-DIMENSIONAL ART

ELECTIVE

Course Number: 4002

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Introduction to Two-Dimensional Art

Introduction to Three-Dimensional Art is a course based on the Indiana Academic Standards for Visual Art. Students taking this course engage in sequential learning experiences that encompass art history, art criticism, aesthetics, production, and integrated studies and lead to the creation of portfolio quality works. Students explore historical and cultural background and connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; create three-dimensional works of art, reflect upon the outcomes, and revise their work; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. They identify ways to utilize and support art museums, galleries, studios, and community resources.

CERAMICS

ELECTIVE

Course Number: 4040

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Ceramics is a course based on the Indiana Academic Standards for Visual Art. Students in ceramics engage in sequential learning experiences that encompass art history, art criticism, aesthetics, and production and lead to the creation of portfolio quality works. Students create works of art in clay utilizing the processes of hand building, molds, wheel throwing, slip and glaze techniques, and the firing processes. They reflect upon and refine their work; explore cultural and historical connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. Students utilize the resources of art museums, galleries, and studios, and identify art-related careers.

SCULPTURE

ELECTIVE

Course Number: 4044

Grade 10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Sculpture is a course based on the Indiana Academic Standards for Visual Art. Students in sculpture engage in sequential learning experiences that encompass art history, art criticism, aesthetics, and production. Using materials such as plaster, clay, metal, paper, wax, and plastic, students create portfolio quality works. Students at this level produce works for their portfolios that show a sincere desire to explore various ideas and problems. They create realistic and abstract sculptures utilizing subtractive and additive processes of carving, modeling, construction, and assembling. They reflect upon and refine their work; explore cultural and historical connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. Students utilize the resources of art museums, galleries, and studios, and identify art-related careers.

DRAWING

ELECTIVE

Course Number: 4060

Grade 10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Drawing is a course based on the Indiana Academic Standards for Visual Art. Students in drawing engage in sequential learning experiences that encompass art history, art criticism, aesthetics, and production and lead to the creation of portfolio quality works. Students create drawings utilizing processes such as sketching, rendering, contour, gesture, and perspective drawing and use a variety of media such as pencil, chalk, pastels, charcoal, and pen and ink. They reflect upon and refine their work; explore cultural and historical connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. Students utilize the resources of art museums, galleries, and studios, and identify art-related careers.

PAINTING

ELECTIVE

Course Number: 4064

Grade 10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Painting is a course based on the Indiana Academic Standards for Visual Art. Students taking painting engage in sequential learning experiences that encompass art history, art criticism, aesthetics, and production that lead to the creation of portfolio quality works. Students create abstract and realistic paintings, using a variety of materials such as mixed media, watercolor, oil, and acrylics and techniques like stippling, gouache, wash, and impasto. They reflect upon and refine their work; explore cultural and historical connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. Students utilize the resources of art museums, galleries, and studios, and identify art-related careers.

ADVANCED TWO-DIMENSIONAL ART

ELECTIVE

Course Number: 4004

Grades 11-12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Advanced Two-Dimensional Art is a course based on the Indiana Academic Standards for Visual Art. Students in this course build on the sequential learning experiences of Introduction to Two-Dimensional Art that encompass art history, art criticism, aesthetics, and production and lead to the creation of portfolio quality works. Students explore historical and cultural background and connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; create two-dimensional works of art, reflect upon the outcomes, and revise their work; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. They identify ways to utilize and support art museums, galleries, studios, and community resources.

ADVANCED THREE-DIMENSIONAL ART

ELECTIVE

Course Number: 4006

Grades 11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Introduction to Two-Dimensional Art; Introduction to Three-Dimensional Art

Advanced Three-Dimensional Art is a course based on the Indiana Academic Standards for Visual Art. Students in this course build on the sequential learning experiences of Introduction to Three-Dimensional Art that encompass art history, art criticism, aesthetics, and production and lead to the creation of portfolio quality works. Students explore historical and cultural background and connections; analyze, interpret, theorize, and make informed judgments about artwork and the nature of art; create three-dimensional works of art, reflect upon the outcomes, and revise their work; relate art to other disciplines and discover opportunities for integration; and incorporate literacy and presentational skills. They identify ways to utilize and support art museums, galleries, studios, and community resources.

PORTFOLIO PREP (W)

ELECTIVE

Course Number: 4004P/4006P

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Teacher Recommendation

The Portfolio Prep class is for students bound to enter college and major in art. In this class, students put together their electronic and a hard copy art portfolio. This class is for serious high achieving Secunia artists only. In this class, students will make a 20+ artifact college art portfolio.

Fine Arts: Drama

Civic Arts Pathway:

Theater

9-12	Intro to Business or Principles of Business Management
9-12	Theater Arts (1 semester)
9-12	Technical Theater (1 semester)
10-12	Advanced Theater or Advanced Technical Theater

THEATRE ARTS

ELECTIVE

Course Number: 4242

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Theatre Arts is based on the Indiana Academic Standards for Theatre. Students enrolled in Theatre Arts read and analyze plays, create scripts and theatre pieces, conceive scenic designs, and develop acting skills. These activities incorporate elements of theatre history, culture, analysis, response, creative process, and integrated studies. Additionally, students explore career opportunities in the theatre, attend and critique theatrical productions, and recognize the responsibilities and the importance of individual theatre patrons in their community.

TECHNICAL THEATRE

ELECTIVE

Course Number: 4244

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Technical Theatre is based on the Indiana Academic Standards for Theatre. Students enrolled in Technical Theatre actively engage in the process of designing, building, managing, and implementing the technical aspects of a production. These activities should incorporate elements of theatre history, culture, analysis, response, creative process, and integrated studies. Additionally, students explore career opportunities in the theatre, attend and critique theatrical productions, and recognize the responsibilities and the importance of individual theatre patrons in their community.

ADVANCED TECHNICAL THEATRE

ELECTIVE

Course Number: 4252

Grades 10-11-12

FULL YEAR 2 Credits

Advanced Technical Theatre is based on the Indiana Academic Standards for Theatre. Students enrolled in Advanced Technical Theatre actively lead and supervise in the process of designing, building, managing, programming, drafting, and implementing the technical aspects of a production. These activities should incorporate elements of theatre history, culture, analysis, response, creative process, and integrated studies. Additionally, students investigate technical theatre careers then develop a plan for potential employment or further education through audition, interview or presentation of a portfolio. Students also attend and critique theatrical productions and volunteer to support theatre in their community.

ADVANCED THEATRE ARTS (DUAL CREDIT) (W)

ELECTIVE

Course Number: 4240

Grades 10-11-12

FULL YEAR 2 Credits

Advanced Theatre Arts is based on the Indiana Academic Standards for Theatre. Students enrolled in Advanced Theatre Arts read and analyze plays and apply criteria to make informed judgments. They draw on events and experiences to create scripted monologues and scenes, create scenic designs for existing plays, and build characters through observation, improvisation, and script analysis. These activities should incorporate elements of theatre history, culture, analysis, response, creative process, and integrated studies. Additionally, students explore careers in theatre arts and begin to develop a portfolio of their work. They also attend and critique theatre productions and identify ways to support the theatre in their community.

DANCE CHOREOGRAPHY

ELECTIVE

Course Number: 4142

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Dance Choreography is based on the Indiana Academic Standards for Dance. Learning activities in choreography are sequential and systematic and allow students to exhibit self-expression. A wide variety of materials and experiences are used in order to provide students with the knowledge, skills, and appreciation of the multi-styled and multicultural dance expressions. Choreographic activities provide students opportunities to participate in roles as a soloist, a choreographer or leader, and in a subject role. Students also explore a wide variety of choreographic philosophies as well as administrative and media skills necessary for the promotion and documentation of works to be performed. Students experience and learn to use appropriate terminology to describe, analyze, interpret, and critique dance compositions by professional individuals or companies.

DANCE PERFORMANCE

ELECTIVE

Course Number: 4146

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Dance Performance is based on the Indiana Academic Standards for Dance. Sequential and systematic learning experiences are provided in the specific genre offered, whether it is Ballet, Modern, Jazz, or Ethnic-Folk. Activities utilize a wide variety of materials and experiences and are designed to develop techniques appropriate within the genre, including individual and group instruction in performance repertoire and skills. Students develop the ability to express their thoughts, perceptions, feelings, and images through movement. The performance class provides opportunities for students to experience degrees of physical prowess, technique, flexibility, and the study of dance performance as an artistic discipline and as a form of artistic communication. Students describe, analyze, interpret, and judge live and recorded dance performances of professional dancers and companies in the genre. They also become aware of the career opportunities in dance.

Fine Arts: Media

Career and Technical Education (CTE) Pathways Offered:

Arts, AV Tech, and Comm: Radio and Television Broadcasting

9-10	Principles of Broadcasting
10-11-12	Audio and Video Production Essentials
11-12	Mass Media Production

STUDENT MEDIA – YEARBOOK

ELECTIVE

Course Number: 1086

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: Application to Teacher

Student Media-Yearbook, a course based on the High School Journalism Standards and the Student Media Standards, is the continuation of the study of Journalism. Students demonstrate their ability to do journalistic writing and design for high school media, including school newspapers, yearbooks, and a variety of other media formats. Students follow the ethical principles and legal boundaries that guide scholastic journalism. Students express themselves publicly with meaning and clarity for the purpose of informing, entertaining, or persuading. Students work on high school media so that they may prepare themselves for career paths in journalism, communications, writing, or related fields.

PRINCIPLES OF BROADCASTING (Dual Credit) (W)

ELECTIVE

Course Number: 7139

Grades 9-10

FULL YEAR 2 Credits

Principles of Broadcasting course provides entry-level fundamental skills for students who wish to seek or pursue opportunities in the field of broadcasting or mass media. Students will explore the technical aspects of audio and sound design for radio production and distribution, as well as the technical aspects of video production and distribution.

AUDIO AND VIDEO PRODUCTION ESSENTIALS

ELECTIVE

(Formerly Radio & TV I)

Course Number: 7306

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: Principles of Broadcasting

Audio and Video Production Essentials provides an in-depth study on audio and video production techniques for radio, television, and digital technologies. Students will learn skills necessary for audio production and on-air work used in radio and other digital formats. Additionally, experience will be gained in the development of the video production process; including skills in message development, directing, camera, video switcher, and character generator operations.

MASS MEDIA PRODUCTION

ELECTIVE

(Formerly Radio & TV II)

Course Number: 7307

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Principles of Broadcasting and Audio and Video Production Essentials

Mass Media Production will focus on the study of theory and practice in the voice and visual aspects of radio and television performance. In addition, this course introduces the skills used to acquire and deliver news stories in a digital media format. Students will learn how to research issues and events, interview news sources, interact with law enforcement and government officials, along with learning to write in a comprehensive news style.

Fine Arts: Music

Civic Arts Pathway:

Chorus

9-12	Intro to Business or Principles of Business Management
9-12	Beginning Chorus
9-12	Advanced Chorus or Choral Chamber Ensemble

Civic Arts Pathway:

Band

9-12	Intro to Business or Principles of Business Management
9-12	Beginning Band
9-12	Advanced Concert Band

BEGINNING CHORUS – CONCERT CHOIR

ELECTIVE

Course Number: 4182

Grades 9-10-11-12

FULL YEAR: 2 Credits

Beginning Chorus is based on the Indiana Academic Standards for High School Choral Music. Students taking Beginning Chorus develop musicianship and specific performance skills through ensemble and solo singing. This class includes the study of quality repertoire in the diverse styles of choral literature appropriate in difficulty and range for the students. Chorus classes provide opportunities for performing, creating, and responding to music. Students develop the ability to understand and convey the composer's intent in performance of music. Time outside of the school day may be scheduled for rehearsals and performances. A limited number of public performances may serve as a culmination of daily rehearsal and musical goals. Students are required to participate in performance opportunities outside of the school day that support and extend learning in the classroom.

ADVANCED CHORUS – CELEBRATIONS!

ELECTIVE

Course Number: 4188

Grades 10-11-12

FULL YEAR: 2 Credits

Prerequisite: Audition

Advanced Chorus is based on the Indiana Academic Standards for High School Choral Music. Students taking Advanced Chorus develop musicianship and specific performance skills through ensemble and solo singing. This class includes the study of quality repertoire in the diverse styles of choral literature appropriate in difficulty and range for the students. Chorus classes provide opportunities for performing, creating, and responding to music. Students develop the ability to understand and convey the composer's intent in performance of music. Time outside of the school day may be scheduled for rehearsals and performances. A limited number of public performances may serve as a culmination of daily rehearsal and musical goals. Students are required to participate in performance opportunities outside of the school day that support and extend learning in the classroom.

CHORAL CHAMBER ENSEMBLE – SACRED SOUNDS

ELECTIVE

Course Number: 4180

Grades 10-11-12

FULL YEAR: 2 Credits

Prerequisite: Audition

Choral Chamber Ensemble is based on the Indiana Academic Standards for High School Choral Music. Student musicianship and specific performance skills in this course are enhanced through specialized small group instruction. The activities expand the repertoire of a specific genre. Chamber ensemble classes provide instruction in creating, performing, listening to, and analyzing music in addition to focusing on specific subject matter. Students develop the ability to understand and convey the composer's intent in performance of music. Time outside of the school day may be scheduled for rehearsals and performances. A limited number of public performances may serve as a culmination of daily rehearsal and musical goals. Students are required to participate in performance opportunities outside of the school day that support and extend learning in the classroom.

BEGINNING CONCERT BAND

ELECTIVE

Course Number: 4160

Grades 9-10-11-12

FULL YEAR 2 Credits

Beginning Concert Band is based on the Indiana Academic Standards for High School Instrumental Music. Students taking this course are provided with a balanced comprehensive study of music through the concert band, which develops skills in the psychomotor, cognitive, and affective domains. Ensemble and solo activities are designed to develop elements of musicianship including tone production, technical skills, intonation, music reading skills, listening skills, analyzing music, studying historically significant styles of literature, and integration of other applicable disciplines. Experiences include improvising, conducting, playing by ear, and sight-reading. Students develop the ability to understand and convey the composer's intent in performance of music. Time outside of the school day may be scheduled for rehearsals and performances. A limited number of public performances may serve as a culmination of daily rehearsal and musical goals. Students are required to participate in performance opportunities outside of the school day that support and extend learning in the classroom.

ADVANCED CONCERT BAND – SYMPHONIC BAND

ELECTIVE

Course Number: 4170H

Grades 9-10-11-12

FULL YEAR 2 Credits

Prerequisite: Teacher recommendation

Advanced Concert Band is based on the Indiana Academic Standards for High School Instrumental Music. This course provides students with a balanced comprehensive study of music through the concert band, which develops skills in the psychomotor, cognitive, and affective domains. Ensemble and solo activities are designed to develop elements of musicianship including tone production, technical skills, intonation, music reading skills, listening skills, analyzing music, studying historically significant styles of literature, and integration of other applicable disciplines. Experiences include improvising, conducting, playing by ear, and sight-reading. Students develop the ability to understand and convey the composer's intent in the performance of music. Time outside of the school day may be scheduled for rehearsals and performances. A limited number of public performances may serve as a culmination of daily rehearsal and musical goals. Students must participate in performance opportunities outside the school day that support and extend learning in the classroom.

MUSIC HISTORY AND APPRECIATION

ELECTIVE

Course Number: 4206

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Music History and Appreciation is based on the Indiana Academic Standards for Music and standards for this specific course. Students receive instruction designed to explore music and major musical styles and periods through understanding music in relation to both Western and Non-Western history and culture. Activities include analyzing and describing music; evaluating music and music performances; and understanding relationships between music and the other arts, as well as disciplines outside of the arts.

MUSIC THEORY AND COMPOSITION

ELECTIVE

Course Number: 4208

Grades 9-10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Music Theory and Composition is based on the Indiana Academic Standards for Music and standards for this specific course. Students develop skills in the analysis of music and theoretical concepts. Students develop ear training and dictation skills, compose works that illustrate mastered concepts, understand harmonic structures and analysis, understand modes and scales, study a wide variety of musical styles, study traditional and nontraditional music notation and sound sources as tools for musical composition, and receive detailed instruction in other basic elements of music.

Health and Physical Education

The Health and Physical Education Department of Scecina Memorial High School incorporates Catholic identity by teaching students the importance of health and activity. Students must learn fair play, sportsmanship, and teamwork with a diversity of people and work towards a common goal.

PHYSICAL EDUCATION I

CORE

Course Number: 3542

Grade 9-10

ONE SEMESTER 1 Credit

Physical Education I focuses on instructional strategies through a planned, sequential, and comprehensive physical education curriculum that provides students with opportunities to actively participate in at least four of the following: team sports; dual sport activities; individual physical activities; outdoor pursuits; self-defense and martial arts; aquatics; gymnastics; and dance, all of which are within the framework of the skills, knowledge and confidence needed by the student for a lifetime of healthful physical activity and fitness. Ongoing assessment includes both written and performance-based skill evaluation.

PHYSICAL EDUCATION II

CORE

(Req. through 2028)

Course Number: 3544

Grade 9-10

ONE SEMESTER 1 Credit

Prerequisite: Physical Education I

Physical Education II focuses on instructional strategies through a planned, sequential, and comprehensive physical education curriculum that provides students with opportunities to actively participate in four of the following areas that were not included in Physical Education I: team sports; dual sport activities; individual physical activities; outdoor pursuits; self-defense and martial arts; aquatics; gymnastics; and dance, all of which are within the framework of the skills, knowledge and confidence needed by the student for a lifetime of healthful physical activity and fitness. Ongoing assessment includes both written and performance-based skill evaluation.

ELECTIVE PHYSICAL EDUCATION (WEIGHTLIFTING)

ELECTIVE

Course Number: 3560A

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: Physical Education I and II

Elective Physical Education, a course based on selected standards from Indiana's Academic Standards for Physical Education, identifies what a student should know and be able to do as a result of a quality physical education program. The goal of a physically educated student is to maintain appropriate levels of cardio- respiratory endurance, muscular strength and endurance, flexibility, and body composition necessary for a healthy and productive life. Elective Physical Education promotes lifetime sport and recreational activities and provides an opportunity for in-depth study in one or more specific areas. This course includes studying physical development concepts and principles of sport and exercise and opportunities to develop or refine skills and attitudes that promote lifelong fitness. With staff support, students can design and develop an appropriate personal fitness program that enables them to achieve a desired level of fitness, including self-monitoring. Ongoing assessment may include individual progress and/or performance-based skill evaluation.

HEALTH AND WELLNESS EDUCATION

CORE

Course Number: 3506

Grade 9-10

ONE SEMESTER 1 Credit

Health and Wellness, a course based on Indiana's Academic Standards for Health and Wellness and provides the basis to help students adopt and maintain healthy behaviors. Health education should contribute directly to a student's ability to successfully practice behaviors that protect and promote health and avoid or reduce health risks. Through a variety of instructional strategies, students practice the development of functional health information (essential concepts); determine personal values that support health behaviors; develop group norms that value a healthy lifestyle; develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors. This course includes the application of priority areas in a planned, sequential, comprehensive health education curriculum. Priority areas include promoting personal health and wellness, physical activity, and healthy eating;

promoting safety and preventing unintentional injury and violence; promoting mental and emotional health, a tobacco free lifestyle and an alcohol- and other drug-free lifestyle; and promoting human development and family health. This course provides students with the knowledge and skills of health and wellness core concepts, analyzing influences, accessing information, interpersonal communication, decision-making and goal-setting skills, health-enhancing behaviors, and health and wellness advocacy skills.

PE ASSISTANT

ELECTIVE

Course Number: 0200

Grades 12

FULL YEAR NO Credit

Prerequisite: Must have a 2.5 Cumulative GPA and be on track with current graduation requirements.

PE Assistant will help the PE teacher in daily classroom activities. Activities include coursework preparation, instruction assistance and participation as needed. This course does not receive a letter grade and students will not receive credit for taking it. This course is for 12th-grade students on track to meet graduation requirements at the end of the school year.

Mathematics

The Mathematics Department at Scecina Memorial High School incorporates Catholic identity by recognizing the Franciscan value of the dignity of the individual and understanding all of our students can achieve high standards in mathematics regardless of their background or perceived limitations. All students are capable of completing higher level math classes and take college level mathematics while at Scecina. The entire math department is committed to meeting this high standard and will strive to accomplish it with every one of our students.

TECHNICAL MATH

ELECTIVE

Course Number: 7218

Grade 9

FULL YEAR 2 Credits

Integrated Math formalizes and extends the mathematics students learned in the middle grades. The critical areas deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. *Integrated Mathematics I* uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades. The final unit in the course ties together the algebraic and geometric ideas studied. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

ALGEBRA I

CORE

Course Number: 2520

Grade 9-10

FULL YEAR 2 Credits

Algebra I formalizes and extends the mathematics students learned in the middle grades. Algebra I is made up of 6 strands: Real Numbers and Expressions; Functions; Linear Equations, Inequalities, and Functions; Systems of Equations and Inequalities; Quadratic and Exponential Equations and Functions; and Data Analysis and Statistics. These critical areas deepen and extend understanding of linear and exponential relationships by contrasting them with each other and by applying linear models to data that exhibit a linear trend. Students will also engage in methods for analyzing, solving, and using quadratic functions. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

ALGEBRA I HONORS (W)

CORE

Course Number: 2520H **Grade 9**

FULL YEAR **2 Credits**

Prerequisite: *Test scores and teacher recommendation*

This course is an intense study of algebra for students who are motivated to excel beyond an average student's capability. Students will be required to have mastered basic skills of properties and operations of real numbers and have mastered solving basic algebraic equations before enrolling in this course. The course will concentrate on more complex skills and research problems of higher difficulty than the *Algebra I* course.

ALGEBRA II

CORE

Course Number: 2522 **Grade 10-11**

FULL YEAR **2 Credits**

Prerequisite: *Algebra I*

Algebra II builds on work with linear, quadratic, and exponential functions and allows for students to extend their repertoire of functions to include polynomial, rational, and radical functions. Students work closely with the expressions that define the functions and continue to expand and hone their abilities to model situations and to solve equations, including solving quadratic equations over the set of complex numbers and solving exponential equations using the properties of logarithms. Algebra II is made up of seven strands: Complex Numbers and Expressions; Functions; Systems of Equations; Quadratic Equations and Functions; Exponential & Logarithmic Equations and Functions; Polynomial, Rational, and Other Equations and Functions; and Data Analysis, Statistics, and Probability. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

ALGEBRA II HONORS (W)

CORE

Course Number: 2522H **Grade 10**

FULL YEAR **2 Credits**

Prerequisite: *Algebra I and teacher recommendation.*

An intense study of advanced algebraic skills and more complex problems than those covered in the Algebra II course. Probabilities, statistics, and matrices will also be covered. The course will include more extensive use of graphing calculators.

GEOMETRY

CORE

Course Number: 2532 **Grades 9-10-11-12**

FULL YEAR **2 Credits**

Prerequisite: *Algebra I*

Geometry formalizes and extends students' geometric experiences from the middle grades. Students explore more complex geometric situations and deepen their explanations of geometric relationships, moving towards formal mathematical arguments. Seven critical areas comprise the Geometry course: Logic and Proofs; Points, Lines, Angles, and Planes; Triangles; Quadrilaterals and Other Polygons; Circles; Transformations; and Three-dimensional Solids. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

GEOMETRY HONORS (W)

CORE

Course Number: 2532H **Grades 9-10-11**

FULL YEAR **2 Credits**

Prerequisite: *Algebra I and teacher recommendation*

This course is an intense study of geometry in which the student will be motivated to excel beyond the average student's capability. Course topics will be similar to the academic geometry course but will explore more complex problems and will include an introduction to trigonometry.

PRE-CALCULUS: ALGEBRA

ELECTIVE

Course Number: 2564

Grades 11-12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: Algebra I, II, and Geometry

Pre-Calculus extends the foundations of algebra and functions developed in previous courses to new functions, including exponential and logarithmic functions, and to higher-level sequences and series. The course provides students with the skills and understandings that are necessary for advanced manipulation of angles and measurement. Pre-Calculus is made up of five strands: Polar Coordinates and Complex Numbers; Functions; Quadratic, Polynomial, and Rational Equations and Functions; Exponential and Logarithmic Equations and Functions; and Parametric Equations. Students will also advance their understanding of imaginary numbers through an investigation of complex numbers and polar coordinates. The course is designed for students who expect math to be a major component of their future college and career experiences, and as such it is designed to provide students with strong foundations for calculus and other higher-level math courses. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

PRE-CALCULUS: TRIGONOMETRY

ELECTIVE

Course Number: 2566

Grades 11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Algebra I, II, and Geometry

Trigonometry provides students with the skills and understandings that are necessary for advanced manipulation of angles and measurement. Trigonometry provides the foundation for common periodic functions that are encountered in many disciplines, including music, engineering, medicine, finance, and nearly all other STEM disciplines. Trigonometry consists of seven strands: conics, unit circle, geometry, periodic functions, identities, polar coordinates, and vectors. Students will also advance their understanding of imaginary numbers through an investigation of complex numbers and polar coordinates. A strong understanding of complex and imaginary numbers is a necessity for fields such as engineering and computer programming. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

CALCULUS

ELECTIVE

Course Number: 2527

Grade 12

FULL YEAR 2 Credits

Prerequisite: A or B in Pre-Calculus or teacher recommendation

Calculus expands a student's knowledge of topics like functions, graphs, limits, derivatives, and integrals. Additionally, students will review algebra and functions, modeling, trigonometry, etc. Calculus is made up of five strands: Limits and Continuity; Differentiation; Applications of Derivatives; Integrals; and Applications of Integrals. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

AP CALCULUS AB (W)

ELECTIVE

Course Number: 2562

Grade 12

FULL YEAR 2 Credits

Prerequisite: A or B in Pre-Calculus or teacher recommendation

AP Calculus AB is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP Calculus AB is equivalent to a first semester college calculus course devoted to topics in differential and integral calculus. This course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.

PROBABILITY AND STATISTICS

ELECTIVE

Course Number: 2546

Grades 11-12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: Algebra I and II

Probability and Statistics includes the concepts and skills needed to apply statistical techniques in the decision-making process. Probability and Statistics are made up of three strands: Data Analysis; Experimental Design; and Probability. Practical examples based on real experimental data are used throughout. Students plan and conduct experiments or surveys and analyze the resulting data. The use of graphing technology and computer programs is encouraged. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

QUANTITATIVE REASONING

ELECTIVE

Course Number: 2550

Grades 11-12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: Algebra I and II

Quantitative Reasoning is a mathematics course focused on the study of numeracy, ratio and proportional reasoning, modeling, probabilistic reasoning to assess risk, and statistics. Students build knowledge of and confidence with basic mathematical/analytical concepts and operations required for problem solving, decision making, and economic productivity in real-world applications and prepare for an increasingly information-based society in which the ability to use and critically evaluate information, especially numerical information, is essential. Technology, such as computers and graphing calculators, should be used frequently. This higher-level mathematics course is designed to align with college-level quantitative reasoning courses for dual secondary/college credit. The eight Process Standards for Mathematics apply throughout the course. Together with the content standards, the Process Standards prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

AP STATISTICS (W)

ELECTIVE

Course Number: 2570

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: B or better in Algebra II or a B or better in Pre-Calculus or teacher recommendation

AP Statistics is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The AP Statistics course is equivalent to a one-semester, introductory, non-calculus-based college course in statistics. The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding.

BUSINESS MATH

ELECTIVE

Course Number: 4512

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Algebra I

Business Math is a course designed to prepare students for roles as entrepreneurs, producers, and business leaders by developing abilities and skills that are part of any business environment. A solid understanding of math including algebra, basic geometry, statistics, and probability provides the necessary foundation for students interested in careers in business and skilled trade areas. The content includes mathematical operations related to accounting, banking and finance, marketing, and management. Instructional strategies should include simulations, guest speakers, tours, Internet research, and business experiences.

Multidisciplinary

Multidisciplinary courses offer students the ability to develop skills that apply across all disciplines. These courses have the goal of instructing and teaching students on the tools and strategies to be successful in all walks of life. These courses are elective and may be recommended for the student based upon a wide range of criteria.

STUDY SKILLS DEVELOPMENT

ELECTIVE

Course Number: 0500

Grades 9-10-11-12

FULL YEAR **2 Credits**

Prerequisite: *Must be recommended by teacher.*

Study Skills Development is a multidisciplinary course that provides students continuing opportunities to develop basic skills including: (1) reading, (2) writing, (3) listening, (4) speaking, (5) mathematical computation, (6) note taking, (7) study and organizational skills, and (8) problem-solving skills, which are essential for high school course work achievement. Determination of the skills to be emphasized in this course is based on Indiana's standards, individual school corporation general curriculum plans, and the student's Individualized Education Programs (IEP) or other individualized plans. Skills selected for developmental work provide students with the ability to continue to learn in a range of different life situations.

PREPARING FOR COLLEGE AND CAREERS

CORE (2029 and beyond)

Course Number: 0522IVYT

Grades 9-10

ONE SEMESTER **1 Credit**

Offered fall

Preparing for College and Careers addresses the knowledge, skills, and behaviors all students need to be prepared for success in college, career, and life. The focus of the course is the impact of today's choices on tomorrow's possibilities. Topics to be addressed include twenty-first century life and career skills; higher order thinking, communication, leadership, and management processes; exploration of personal aptitudes, interests, values, and goals; examining multiple life roles and responsibilities as individuals and family members; planning and building employability skills; transferring school skills to life and work; and managing personal resources. This course includes reviewing the national career clusters and Indiana's College and Career Pathways, in-depth investigation of one or more pathways, reviewing graduation plans, exploring postsecondary options and making career plans, and developing personal and career portfolios.

ENGLISH AS A NEW LANGUAGE – WORLD LANGUAGE

ELECTIVE

Course Number: 2188

Grades 11-12

FULL YEAR **2 Credits**

Prerequisite: *Must be recommended by teacher.*

English as a New Language, an integrated English course based on the WIDA English Language Development (ELD) Standards, is the study of language, literature, composition and oral communication for English learners (ELs) so that they improve their proficiency in listening, speaking, reading, writing and comprehension of standard English. Students study English vocabulary used in fictional texts and content-area texts, speak and write English so that they can function within the regular school setting and an English-speaking society, and deliver oral presentations appropriate to their respective levels of English proficiency.

Science

The Science Department at Scecina Memorial High School incorporates Catholic identity as God is the creator of the universe. Science students will learn Creation through their study of the physical and life sciences. They will come to respect the complexity of the world around them, making them better stewards of the environment and protectors of all life in the interconnectedness of creation.

EARTH AND SPACE SCIENCE I

ELECTIVE

Course Number: 3044 **Grades 9**

FULL YEAR 2 Credits

Earth and Space Science I is a course focused on the following core topics: universe; solar system; Earth cycles and systems; atmosphere and hydrosphere; solid Earth; Earth processes. Students analyze and describe earth's interconnected systems and examine how earth's materials, landforms, and continents are modified across geological time. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by 283 Indiana Department of Education High School Course Titles and Descriptions designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures.

BIOLOGY I

CORE

Course Number: 3024 **Grades 9-10**

FULL YEAR 2 Credits

Biology I is a course based on the following core topics: cellular structure and function, matter cycles and energy transfer; interdependence; inheritance and variation in traits; evolution. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures.

BIOLOGY I HONORS (W)

CORE

Course Number: 3024H **Grades 9-10**

FULL YEAR 2 Credits

Prerequisite: B or better in 8th grade math & science

Biology I Honors is a course based on the following core topics: cellular structure and function, matter cycles and energy transfer; interdependence; inheritance and variation in traits; evolution. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures. In addition, this course will go into more depth on biological issues and move at a more rapid pace. This course is strongly advised for students interested in AP Biology.

INTEGRATED CHEMISTRY-PHYSICS

CORE

Course Number: 3108 **Grades 10-11-12**

FULL YEAR 2 Credits

Prerequisite: Algebra 1 (may be taken concurrently)

Integrated Chemistry-Physics is a course focused on the following core topics: constant velocity; uniform acceleration; Newton's Laws of motion (one dimension); energy; particle theory of matter; describing substances; representing chemical change; electricity and magnetism; waves; nuclear energy. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation using the Science and Engineering Practices (SEPS) and cross-cutting concepts.

CHEMISTRY I

CORE

Course Number: 3064 **Grades 9-10-11-12**

FULL YEAR 2 Credits

Prerequisite: High School Biology and Algebra 1 and teacher recommendation

Chemistry I is a course based on the following core topics: properties and states of matter; atomic structure and the Periodic Table; bonding and molecular structure; reactions and stoichiometry; behavior of gases; thermochemistry; solutions; acids and bases. Students enrolled in Chemistry I compare, contrast, and synthesize useful models of the structure and properties of matter and the mechanisms of its interactions. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures.

CHEMISTRY I HONORS (W)

CORE

Course Number: 3064H

Grades 9-10-11-12

FULL YEAR 2 Credits

Prerequisite: B or better in High School Biology and Algebra 1 and teacher recommendation

Chemistry I Honors is a course based on the following core topics: properties and states of matter; atomic structure and the Periodic Table; bonding and molecular structure; reactions and stoichiometry; behavior of gases; thermochemistry; solutions; acids and bases. Students enrolled in Chemistry I compare, contrast, and synthesize useful models of the structure and properties of matter and the mechanisms of its interactions. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures. In addition, this course will explore in more depth chemistry concepts and move at a more rapid pace.

PHYSICS I

CORE

Course Number: 3084

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: Biology

Physics I is a course focused on the following core topics: constant velocity; constant acceleration; forces; energy; linear momentum in one dimension; simple harmonic oscillating systems; mechanical waves and sound; simple circuit analysis. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures.

PHYSICS I HONORS (W)

CORE

Course Number: 3084H

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: Biology & Algebra II (B or better) (may be taken concurrently)

Physics I is a course focused on the following core topics: constant velocity; constant acceleration; forces; energy; linear momentum in one dimension; simple harmonic oscillating systems; mechanical waves and sound; simple circuit analysis. Instruction should focus on developing student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing and conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures.

AP PHYSICS 1: ALGEBRA-BASED (W)

ELECTIVE

Course Number: 3080

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: Physics I and Pre-Calculus/Trigonometry (can be taken concurrently)

AP Physics 1 is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP Physics 1: Algebra-based is equivalent to a first-semester college course in algebra-based physics. The course includes Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; mechanical waves and sound. It will also introduce electric circuits.

ANATOMY/PHYSIOLOGY

ELECTIVE

Course Number: 5276

Grades 11-12

ONE SEMESTER 2 Credits

Prerequisite: B or better in Biology I; B or better in Chemistry

Anatomy & Physiology is a course in which students investigate concepts related to Health Science, with emphasis on interdependence of systems and contributions of each system to the maintenance of a healthy body. It introduces students to the cell, which is the basic structural and functional unit of all organisms, and covers tissues, integument, skeleton, muscular and nervous systems as an integrated unit. Through instruction, including laboratory activities, students apply concepts associated with Human Anatomy & Physiology. Students will

understand the structure, organization and function of the various components of the healthy body in order to apply this knowledge in all health-related fields.

ADVANCED SCIENCE, SPECIAL TOPICS: ZOOLOGY

Course Number: 3026Z **Grades** 11-12

ONE SEMESTER 1 Credit

Prerequisite: *C or better in Biology I*

Zoology focuses on the evolution and ecology of animals beginning with invertebrates and continuing through vertebrates. *Zoology* provides extended laboratory and literary investigations into the internal structures, functions and process of animals with an emphasis on their interactions with the environment. Catholic identity integration will emphasize stewardship and appreciation for life and how our lives are supported by other organisms.

ELECTIVE

Offered in fall

ADVANCED SCIENCE, SPECIAL TOPICS: BOTANY

Course Number: 3026B **Grades** 11-12

ONE SEMESTER 1 Credit

Prerequisite: *C or better in Biology I*

Botany focuses on the evolution and ecology of plants. It will include studies of the major phylums, characteristics of plants, and plant physiology. Catholic identity integration will emphasize stewardship and appreciation for life and how our lives are supported by other organisms.

ELECTIVE

Offered in spring

AP BIOLOGY (W)

Course Number: 3020 **Grade** 11-12

FULL YEAR 2 Credits

Prerequisites: *Biology I and Chemistry I*

AP Biology is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The major themes of the course include: The process of evolution drives the diversity and unity of life, Biological systems utilize free energy and molecular building blocks to grow, to reproduce and to maintain dynamic homeostasis, Living systems store, retrieve, transmit and respond to information essential to life processes, Biological systems interact, and these systems and their interactions possess complex properties.

ELECTIVE -offered 27-28

Alternate Years with AP Environmental Science

AP ENVIRONMENTAL SCIENCE (W)

Course Number: 3012 **Grades** 11-12

FULL YEAR 2 Credits

Prerequisite: *1 year of Biology; 1 year of Chemistry or Physics II*

AP Environmental Science is a course based on content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. Students enrolled in AP Environmental Science investigate the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them.

ELECTIVE – offered 26-27

Alternate Years with AP Biology

AP CHEMISTRY (W)

Course Number: 3060 **Grade** 10-11-12

FULL YEAR 2 Credits

Prerequisites: *Algebra I & Biology with a grade of at least a B and recommendation of teacher.*

AP Chemistry is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The content includes: (1) structure of matter: atomic theory and structure, chemical bonding, molecular models, nuclear chemistry; (2) states of matter: gases, liquids and solids, solutions; and (3) reactions: reaction types, stoichiometry, equilibrium, kinetics and thermodynamics.

ELECTIVE

Social Studies

The Social Studies department of Scecina Memorial High School incorporates Catholic identity through the study of the Catholic Church as well as religious history and Franciscan values. Students learn to respect the dignity of the individual through their studies of the human being, culture and history. History and government classes focus on peace and justice and the ways in which wars and injustices have affected people. Reconciliation is important as tolerance and forgiveness are fostered through the understanding of differences among people. Through the study of the earth and its peoples, students grow in their knowledge of the gifts of this earth and their duty to care for them and exercise responsible stewardship.

GEOGRAPHY AND HISTORY OF THE WORLD

CORE/ELECTIVE

Course Number: 1570

Grades 9-10

FULL YEAR 2 Credits

Geography and History of the World is designed to enable students to use geographical tools, skills and historical concepts to deepen their understanding of major global themes including the origin and spread of world religions; exploration; conquest, and imperialism; urbanization; and innovations and revolutions. Geographical and historical skills include forming research questions, acquiring information by investigating a variety of primary and secondary sources, organizing information by creating graphic representations, analyzing information to determine and explain patterns and trends, planning for the future, and documenting and presenting findings orally or in writing. The historical geography concepts used to explore global themes include change over time, origin, diffusion, physical systems, cultural landscapes, and spatial distribution/patterns and interaction/relationships. Students use the knowledge, tools, and skills obtained from this course in order to analyze, evaluate, and make predictions about major global developments. This course is designed to nurture perceptive and responsible citizenship, to encourage and support the development of critical thinking skills and lifelong learning, and to help prepare Indiana students for the 21st Century.

AP WORLD HISTORY MODERN (W)

CORE/ELECTIVE

Course Number: 1612

Grade 10

FULL YEAR 2 Credits

Prerequisite: Teacher recommendation

AP World History Modern is designed to be the equivalent of a two- semester introductory college or university world history course. According to the College Board AP World History Modern students “investigate significant events, individuals, developments, and processes in historical periods from approximately 1200 CE to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; making historical comparisons; utilizing reasoning about contextualization, causation, and continuity and change over time; and developing historical arguments. The course provides five themes that students explore throughout the course in order to make connections among historical developments in different times and places: interaction between humans and the environment; development and interaction of cultures; state building, expansion, and conflict; creation, expansion, and interaction of economic systems; and development and transformation of social structures.

UNITED STATES HISTORY

CORE

Course Number: 1542

Grade 11

FULL YEAR 2 Credits

United States History is a two-semester course that builds upon concepts developed in previous studies of U.S. History and emphasizes national development from the late nineteenth century into the twenty-first century. After reviewing fundamental themes in the nation's early development, students are expected to identify and review significant events, persons, and movements in its early development. The course then gives major emphasis to the interaction of key events, people, and political, economic, social, and cultural influences in national developments from the late nineteenth century through the present as they relate to life in Indiana and the United States. Students are expected to trace and analyze chronological periods and examine the significant themes and concepts in U.S. History. Students develop historical thinking and research skills and use primary and secondary sources to explore topical issues and to understand the cause for changes in the nation over time.

AP UNITED STATES HISTORY (Dual Credit) (W)

CORE

Course Number: 1562

Grade 11

FULL YEAR 2 Credits

Prerequisite: Teacher recommendation

AP United States History is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP United States History focuses on developing students' abilities to think conceptually about U.S. history from approximately 1491 to the present and apply historical thinking skills as they learn about the past. Seven themes of equal importance — identity; peopling; politics and power; work, exchange, and technology; America in the world; environment and geography; and ideas, beliefs, and culture — provide areas of historical inquiry for investigation throughout the course. These require students to reason historically about continuity and change over time and make comparisons among various historical developments in different times and places.

UNITED STATES GOVERNMENT

CORE

Course Number: 1540

Grade 12

ONE SEMESTER 1 Credit

Offered in fall and spring

United States Government provides a framework for understanding the purposes, principles, and practices of constitutional representative democracy in the United States. Responsible and effective participation of citizens is stressed. Students understand the nature of citizenship, politics, and governments and understand the rights and responsibilities of citizens and how these are part of local, state, and national government. Students examine how the United States Constitution protects rights and provides the structure and functions of various levels of government. Analysis of how the United States interacts with other nations and the government's role in world affairs is included in this course. Using primary and secondary resources, students will articulate, evaluate, and defend positions on political issues. As a result, they will be able to explain the role of individuals and groups in government, politics, and civic activities and the need for civic and political engagement of citizens in the United States.

ECONOMICS

CORE

Course Number: 1514

Grade 12

ONE SEMESTER 1 Credit

Offered in fall and spring

Economics examines the allocation of resources and their uses for satisfying human needs and wants. The course analyzes economic reasoning and behaviors of consumers, producers, savers, investors, workers, voters, institutions, governments, and societies in making decisions. Students 266 Indiana Department of Education High School Course Titles and Descriptions explain that because resources are limited, people must make choices and understand the role that supply, demand, prices, and profits play in a market economy. Key elements of the course include the study of scarcity and economic reasoning; supply and demand; market structures; the role of government; national economic performance; the role of financial institutions; economic stabilization; and trade.

AP UNITED STATES GOVERNMENT AND POLITICS (W)

CORE

Course Number: 1560

Grade 12

ONE SEMESTER 1 Credit

Offered in fall

Prerequisite: AP US History or teacher recommendation

AP United States Government and Politics is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP U.S. Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behavior. They also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. In addition, they complete a political science research or applied civics project.

AP MICROECONOMICS (W)

CORE

Course Number: 1566

Grade 12

ONE SEMESTER 1 Credit

Offered in spring

Prerequisite: AP US History or teacher recommendation

AP Microeconomics is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP Microeconomics is an introductory college-level course that focuses on the principles of economics that apply to the functions of individual economic decision-makers. The course also develops students' familiarity with the operation of product and factor markets, distributions of income, market failure, and the role of government in promoting greater efficiency and equity in the economy. Students learn to use graphs, charts, and data to analyze, describe, and explain economic concepts. Topics include Basic Economic Concepts; Nature and Functions of Product Markets; Factor Markets; and Market Failure and the Role of Government.

AP PSYCHOLOGY (W)

ELECTIVE

Course Number: 1558

Grades 11-12

FULL YEAR 2 Credits

AP Psychology is a course based on the content established and copyrighted by the College Board. The course is not intended to be used as a dual credit course. The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas. Topics include: History and Approaches; Research Methods; Biological Bases of Behavior; Sensation and Perception; States of Consciousness; Learning; Cognition; Motivation and Emotion; Developmental Psychology; Personality; Testing and Individual Differences; Abnormal Behavior; Treatment of Abnormal Behavior; and Social Psychology.

ETHNIC STUDIES

ELECTIVE

Course Number: 1516

Grades 9-10-11-12

ONE SEMESTER 1 credit

Offered in fall

Ethnic Studies provides opportunities to broaden students' perspectives concerning lifestyles and cultural patterns of ethnic groups in the United States. This course will either focus on a particular ethnic group or groups, or use a comparative approach to the study of patterns of cultural development, immigration, and assimilation, as well as the contributions of specific ethnic or cultural groups. The course may also include analysis of the political impact of ethnic diversity in the United States.

INDIANA STUDIES

ELECTIVE

Course Number: 1518

Grades 9-10-11-12

ONE SEMESTER 1 credit

Offered in spring

Indiana Studies is an integrated course that compares state and national developments in politics, economics, history, and culture. The course uses Indiana history as a basis for understanding current policies, practices, and state legislative procedures. It also includes the study of state and national constitutions from a historical perspective and as a current foundation of government. Examination of individual leaders and their roles in a democratic society will be included and students will examine the participation of citizens in the political process. Selections from Indiana arts and literature may also be analyzed for insights into historical events and cultural expressions.

PSYCHOLOGY

ELECTIVE

Course Number: 1532

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Psychology is the scientific study of mental processes and behavior. The course is divided into eight content areas: History and Scientific Method, Biological Basis for Behavior, Development, Cognition, Personality and Assessment,

Abnormal Psychology, Socio-Cultural Dimensions of Behavior, and Psychological Thinking. History and Scientific Method explores the history of psychology, the research methods used, and the ethical considerations that must be utilized. Biological Basis for Behavior focuses on the way the brain and nervous system function, including sensation, perception, motivation and emotion. Development analyzes the changes through one's life including the physical, cognitive, emotional, social and moral development. Cognition focuses on learning, memory, information processing, and language development. Personality and Assessment explains at the approaches used to explain one's personality and the assessment tools used. Abnormal Psychology explores psychological disorders and the various treatments used for them. Socio-Cultural Dimensions of Behavior covers topics such as conformity, obedience, perceptions, attitudes and influence of the group on the individual. Psychological Thinking explores how to think like a psychologist and expand critical thinking skills needed in the day-to-day life of a psychologist.

TOPICS IN SOCIAL SCIENCE: ABNORMAL PSYCHOLOGY

ELECTIVE

Course Number: 1550A

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in spring

Abnormal Psychology will provide an overview of the scientific study of mental illness (also known as psychopathology). About 25% of the course will cover basic concepts and definitions, historical perspectives on psychopathology, different theoretical models of psychopathology, the assessment and diagnosis of mental illness, and research methods for studying mental disorders. The remaining 75% of the course will concern the leading categories of mental disorders among adults, children and adolescents, including the description and classification of these disorders, the leading theories and evidence explaining their origins, and some of the treatments for these disorders. Legal and ethical issues pertaining to the assessment and treatment of mental illness will be discussed, as well as the role of culture and diversity in assessment and treatment.

SOCIOLOGY

ELECTIVE

Course Number: 1534

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in fall

Sociology allows students to study human social behavior from a group perspective. The sociological perspective is a method of studying recurring patterns in people's attitudes and actions and how these patterns vary across time, cultures, and in social settings and groups. Students describe the development of sociology as a social science and identify methods of research. Through research methods such as scientific inquiry students examine society, group behavior, and social structures. The influence of culture on group behavior is addressed through institutions such as the family, religion, education, economics, community organizations, government, and political and social groups. The impact of social groups and institutions on 272 Indiana Department of Education High School Course Titles and Descriptions group and individual behavior and the changing nature of society will be examined. Influences on group behavior and social problems are included in the course. Students also analyze the role of individuals in the community and social problems in today's world.

TOPICS IN SOCIAL SCIENCE: WAR AND SOCIETY

ELECTIVE

Course Number: 1550W

Grades 10-11-12

ONE SEMESTER 1 Credit

Offered in spring

War is a large scale social endeavor, often the most sophisticated coordination carried out by a polity. Here we investigate the nature of war, the sociological characteristics of the organizations developed for its pursuit, and its connection with different political forms. This is not a class on violence, nor is it a class on military sociology. While we will bump into these topics, our focus is on war first and foremost, the preparations for and consequences of secondly, and only thirdly these other topics.

World Languages

The World Language Department at Scecina Memorial High School incorporates Catholic identity through the analysis of diverse languages and cultures. Using discussion and reflective study, the department encourages students to interpret current media. Instructors give them tools to make logical and morally responsible decisions based on Catholic values. Through experience in oral and written expression, students learn to articulate and defend their beliefs, arguing them effectively and courteously. All of these skills have as their ultimate goal the preparation of our students to live lives in accordance with the Franciscan tenets of responsible stewardship, service, and reconciliation with others.

FRENCH I

ELECTIVE

Course Number: 2020

Grades 9-10-11-12

FULL YEAR 2 Credits

French I, a course based on Indiana's Academic Standards for World Languages, introduces students to effective strategies for beginning French language learning, and to various aspects of French-speaking culture. This course encourages interpersonal communication through speaking and writing, providing opportunities to make and respond to basic requests and questions, understand and use appropriate greetings and forms of address, participate in brief guided conversations on familiar topics, and write short passages with guidance. This course also emphasizes the development of reading and listening comprehension skills, such as reading isolated words and phrases in a situational context and comprehending brief written or oral directions. Additionally, students will examine the practices, products and perspectives of French-speaking culture; recognize basic routine practices of the target culture; and recognize and use situation-appropriate non-verbal communication. This course further emphasizes making connections across content areas and the application of understanding French language and culture outside of the classroom.

FRENCH II

ELECTIVE

Course Number: 2022

Grades 10-11-12

FULL YEAR 2 Credits

Prerequisite: French I and recommendation from the teacher.

French II, a course based on Indiana's Academic Standards for World Languages, builds upon effective strategies for French language learning by encouraging the use of the language and cultural understanding for self-directed purposes. This course encourages interpersonal communication through speaking and writing, providing opportunities to make and respond to requests and questions in expanded contexts, participate independently in brief conversations on familiar topics, and write cohesive passages with greater independence and using appropriate formats. This course also emphasizes the development of reading and listening comprehension skills, such as using contextual clues to guess meaning and comprehending longer written or oral directions. Students will address the presentational mode by presenting prepared material on a variety of topics, as well as reading aloud to practice appropriate pronunciation and intonation. Additionally, students will describe the practices, products and perspectives of French-speaking culture; report on basic family and social practices of the target culture; and describe contributions from the target culture. This course further emphasizes making connections across content areas and the application of understanding French language and culture outside of the classroom.

FRENCH III

ELECTIVE

Course Number: 2024

Grades 11-12

FULL YEAR 2 Credits

Prerequisite: French I, II and recommendation from the teacher.

French III, a course based on Indiana's Academic Standards for World Languages, builds upon effective strategies for French language learning by facilitating the use of the language and cultural understanding for self-directed purposes. This course encourages interpersonal communication through speaking and writing, providing opportunities to initiate, sustain and close conversations; exchange detailed information in oral and written form; and write cohesive information with greater detail. This course also emphasizes the continued development of reading and listening comprehension skills, such as using cognates, synonyms and antonyms to derive meaning from written and oral information, as well as comprehending detailed written or oral directions. Students will address the presentational mode by presenting student-created material on a variety of topics, as well as reading aloud to

practice appropriate pronunciation and intonation. Additionally, students will continue to develop understanding of French-speaking culture through recognition of the interrelations among the practices, products and perspectives of the target culture; discussion of significant events in the target culture; and investigation of elements that shape cultural identity in the target culture. This course further emphasizes making connections across content areas as well the application of understanding French language and culture outside of the classroom.

FRENCH IV (W)

ELECTIVE

Course Number: 2026

Grades 12

FULL YEAR 2 Credits

Prerequisite: French I, II, III and recommendation from the teacher.

French IV, a course based on Indiana's Academic Standards for World Languages, provides a context for integration of the continued development of language skills and cultural understanding with other content areas and the community beyond the classroom. The skill sets that apply to the exchange of written and oral information are expanded through emphasis on practicing speaking and listening strategies that facilitate communication, such as the use of circumlocution, guessing meaning in familiar and unfamiliar contexts, and using elements of word formation to expand vocabulary and derive meaning. Additionally, students will continue to develop understanding of French-speaking culture through explaining factors that influence the practices, products, and perspectives of the target culture; reflecting on cultural practices of the target culture; and comparing systems of the target culture and the student's own culture. This course further emphasizes making connections across content areas through the design of activities and materials that integrate the target language and culture with concepts and skills from other content areas. The use and influence of the French language and culture in the community beyond the classroom is explored through the identification and evaluation of resources intended for native French speakers.

SPANISH LANGUAGE FOR HERITAGE SPEAKERS I

ELECTIVE

Course Number: 2190

Grades 9-10-11-12

FULL YEAR 2 Credits

Language for Heritage Speakers I is a course designed for heritage speakers of world languages who have demonstrated some degree of oral proficiency. The purpose of this course is to enable Heritage Language Learners to increase proficiency and bi-literacy in their native language by providing opportunities to improve reading and listening comprehension, as well as writing and grammar skills. Special attention will be given to grammar and vocabulary of the standard language, as well as to the importance of biculturalism and bilingualism in the United States today. Placement of students and development of the course curriculum is dependent upon the population of students enrolled in this course.

SPANISH LANGUAGE FOR HERITAGE SPEAKERS II

ELECTIVE

Course Number: 2192

Grades 10-11-12

FULL YEAR 2 Credits

Language for Heritage Speakers II builds upon *Language for Heritage Speakers I*, and is a course designed for heritage speakers of world languages who have demonstrated some degree of oral proficiency. The purpose of this course is to enable Heritage Language Learners to increase proficiency and bi-literacy in their native language by providing opportunities to improve reading and listening comprehension, as well as writing and grammar skills. Special attention will be given to grammar and vocabulary of the standard language, as well as to the importance of biculturalism and bilingualism in the United States today. Placement of students and development of the course curriculum is dependent upon the population of students enrolled in this course.

AP SPANISH LANGUAGE AND CULTURE (W)**ELECTIVE****Course Number: 2132****Grade 12****FULL YEAR 2 Credits****Prerequisite: Spanish I, II, III and recommendation from the teacher.**

AP Spanish Language and Culture is a course established and copyrighted by the College Board and follows the College Board course guidelines for AP Spanish Language and Culture. The course prepares students to be successful on the AP Spanish Language and Culture exam. The course is not intended to be used as a dual credit course. The AP Spanish Language and Culture course emphasizes communication (understanding and being understood by others) by applying interpersonal, interpretive, and presentational skills in real-life situations. This includes vocabulary usage, language control, communication strategies, and cultural awareness. The AP Spanish Language and Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the study of language and culture, the course is taught almost exclusively in Spanish. The AP Spanish Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products (e.g., tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); and perspectives (values, attitudes, and assumptions).
